

Chapter 3. Source Coding

- Recall the Purpose of Source Coding:
 - Efficiently (i.e. minimizes the number of bits) represents the information source output digitally
 - Can be viewed as data compression
- Start by developing a mathematical model for information
 - NOTE: The results of chapter 2 are used since the information sequence can be viewed as a stochastic process. This is a subtle but important point. If we knew what we wanted to transmit a priori, then there would be no need to have a communication system. The receiver would know what to expect.
