

Indoor Running Track Lesson

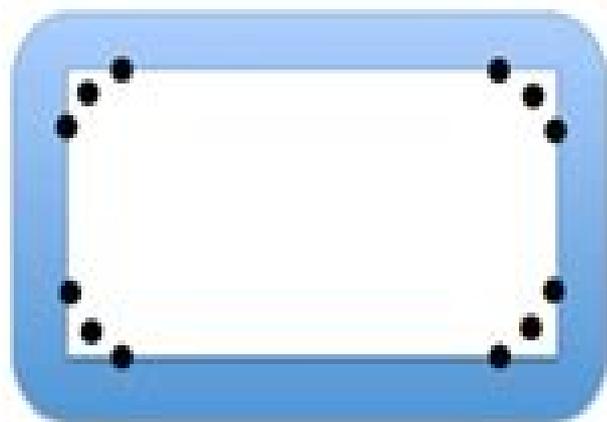

Warm Up

- Option 1 - Teacher leads a SAQ warm up. This might be more appropriate for younger pupils.
- Option 2 - Depending on the number of students in the class get students into six to eight mixed ability groups. Students then perform their own student led SAQ warm up. This might be more suitable for pupils who may have a higher level of independence.

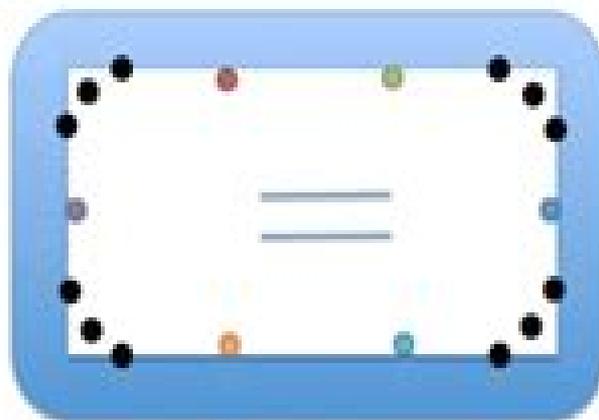

Running Track

Place a curved line at each corner of the gym or sports hall using cones to create the bends of the running track. The blue area on the picture below signifies the running track/area.

Then place cones where each team will start. If there are six teams then place six different starting positions around the running track. Each team sits in single file behind their cone facing the track. The first person in their teams completes their lap and passes a baton to

the next person in the team to conduct their leg. The last person to run completes their lap runs past their cone and runs to the middle of the sports hall and gets into the finishing line in the order in which they finished. When all teams are in they return to their team and the next race begins.

Variations

- 1 lap each sprint
- 2 laps each
- 3 laps each
- Team challenge - You have to complete 30 laps how you achieve this is up to your team but everyone must run at least one lap.
- Race walking version
- Chase - The objective is to catch the teams in front of you if you catch them their team is out this continues until one team is left. Each lap one runner retires and one joins the race.

Safety

Make sure all students know the direction to run in before the race starts. Overtaking is permitted but must be done with care moving past the person on the outside. Alternate running direction to change inside running foot.

Scoring System

If there are eight teams for example the team that finishes first will gain 8 points, 7 points for second and so on.

Cool Down

- Option 1 - Teacher leads a whole class cool down.
- Option 2 - Teams conduct their own cool down in a designated space.

Dexheimer, 1914 Emotionally Intelligent School Leadership Brandy L. Tackett, 2026-03-04 Emotionally Intelligent School Leadership is a powerful and practical guide for school leaders navigating the challenges of educational leadership particularly in high needs and turnaround schools The book explores the critical role of emotional intelligence in fostering a positive school culture building trust managing resistance and sustaining transformational change Drawing from real life leadership experiences research backed insights and practical strategies this book challenges the traditional notion that leadership is solely about strategy accountability and instructional expertise Instead it emphasizes the impact of self awareness empathy and relationship building on a school s success This timely book equips school leaders principals assistant principals instructional coaches and district administrators with the tools to lead with both their head and heart It provides actionable solutions for overcoming common leadership pitfalls addressing toxic culture dynamics and building an environment where teachers and students feel seen supported and motivated to excel Emotionally Intelligent School Leadership serves as both a wake up call and a roadmap for leaders who want to move beyond managing schools and instead inspire meaningful lasting transformation If you re ready to break the cycle of toxic leadership boost staff morale and create a school where people genuinely want to be this book will show you how Emotionally Intelligent School Leadership will help you become the leader your school needs *Teaching While Black* Pamela Lewis, 2016-03-16 Teaching should never be color blind In a world where many believe the best approach toward eradicating racism is to feign ignorance of our palpable physical differences a few have led the movement toward convincing fellow educators not only to consider race but to use it as the very basis of their teaching This is what education activist and writer Pamela Lewis has set upon to do in her compelling book *Teaching While Black A New Voice on Race and Education in New York City* As the title suggests embracing blackness in the classroom can be threatening to many and thus challenging to carry out in the present school system Unapologetic and gritty *Teaching While Black* offers an insightful honest portrayal of Lewis s turbulent eleven year relationship within the New York City public school system and her fight to survive in a profession that has undervalued her worth and her understanding of how children of color learn best Tracing her educational journey with its roots in the North Bronx Lewis paints a vivid intimate picture of her battle to be heard in a system struggling to unlock the minds of the children it serves while stifling the voices of teachers of color who hold the key The reader gains full access to a perspective that has been virtually ignored since the No Child Left Behind Act through which questions surrounding increased resignation rates by teachers of color and failing test scores can be answered

Teaching While Black is both a deeply personal narrative of a black woman's real life experiences and a clarion call for culturally responsive teaching Lewis fearlessly addresses the reality of toxic school culture head on and gives readers an inside look at the inert bureaucracy heavy handed administrators and ineffective approach to pedagogy that prevent inner city kids from learning At the heart of Lewis's moving narrative is her passion Each chapter delves deeper into the author's conscious uncoupling from the current trends in public education that diminish proven remedies for academic underachievement as observed from her own experiences as a teacher of students of color Teaching While Black summons everyone to re-examine what good teaching looks like Through a powerful vision together with practical ideas and strategies for teachers navigating very difficult waters Lewis delivers hope for the future of teaching and learning in inner city schools
