Bunting,2019-03-11 The question this work addresses is this given our current state of knowledge are any of the major religion s creation accounts accurate or are they all myths and fables that don t hold up to close examination This work makes three assumptions Assumption no 1 If there is a creator and he provided a creation account then he should be able to get it right After all he was supposed to be there Assumption no 2 If there is a creator then one of the four major religions each of which has survived a thousand years or more is the most likely place to look for a legitimate creation account a message from our creator It is safe to say any creator capable of creating us and the universe we live in should be capable of accurately revealing his existence Assumption no 3 If we do find an ancient pre science creation account that makes a substantial number of scientific factually accurate statements not just a few lucky guesses but facts that were unknowable at the time the account was written then we can reasonably conclude there must be a creator who revealed these facts Earth Science Robert John Foster,1982 **Earth Science** Gustav Ludwig Fletcher,Caleb Wroe Wolfe,1953 *The New International Encyclopædia* Frank Moore Colby,Talcott Williams,1916 **The New International Encyclopaedia.
