### »»» WHAT IS THE EARTH MADE OF? «««

The Earth is our home, and it is made of many different things. The ground we walk on is called land. Some land is flat, like a playground or a beach. Other land has tall mountains and hills. There is

also water on Earth. Oceans are big and salty, while rivers and lakes have fresh water. People, animals, and plants need water to live.

The Earth has air all around it. We breathe air every day to stay alive. Even though we can't see it, air is all around us. It moves as wind, making the trees sway and the clouds move across the sky.

The land, water, and air work together to make the Earth a special place where all living things can live. Without them, life wouldn't be possible!
