359 - 364

a) Why did Senator Wadsworth propose a draft?

Senator Wadsworth proposed a draft due to an incident that occurred in the summer of 1916, during a Preparedness Day parade in San Francisco. A bomb had exploded, which killed nine people for which two radicalists, Tom Mooney and Warren Billings were arrested and spent twenty years in prison. In such an incident occurring, Senator James Wadsworth of New York suggested compulsory military training for all males to avert the danger that "these people of ours shall be divided into classes." Rather, "We must let our young men know that they owe some responsibility to this country." Ultimately, he wished to create a military that showed men's respect for their country as well as protected the country at the same time.

b) How/why do you think British military requirements changed overtime?

I believe British military requirements changed overtime as they were not a superior enough navy. For one, they had 500,000 casualties in the first Battle of Marne. However, by 1915, war orders for the Allies (mostly England) had stimulated the economy, and by April 1917 more than \$2 billion worth of goods had been sold to the Allies. With World War I, England became more and more a market for American goods and for loans at interest. Capitalist leaders such as J. P. Morgan and Company acted as agents for the Allies, and in 1915, Wilson lifted the ban on private bank loans to the Allies, Morgan could now begin lending money in such great amounts as to both make great profit and tie American finance closely to the interest of a British victory in the war against Germany.

d) What was "no man's land"?

"No man's land" refers to the ghostly territory between the contending trenches. In this case, of the 110,000 German divisions who attacked, 20,000 were killed and 40,000 more were wounded.

e) Discuss the impact of media coverage on the war.

Media coverage impacted the war as it communicated the atrocities that were occurring for each country. For instance, William Langer's 'An Encyclopedia of World History' states "No breakthrough was affected, and the total gain was about 5 miles of territory, which made the Ypres
