Autodesk Certification Exam Preparation Roadmap

Autodesk certifications are industry-recognized credentials that can help you succeed in your design career—providing benefits to both you and your employer.

The certifications provide reliable validation of skills and knowledge, and they can lead to accelerated professional development, improved productivity, and enhanced credibility.

Autodesk highly recommends that you structure your examination preparation for success. This means scheduling regular time to prepare, reviewing this exam preparation roadmap, using the Autodesk Official Training Guide, taking an Assessment test, and using a variety of resources. Equally as important, actual hands-on experience is recommended.

The AutoCAD 2011 Certified Associate exam consists of 30 questions that assess your knowledge of the tools, features, and common tasks of AutoCAD 2011. Question types include multiple choice, matching, and point-and-click (hotspot). The exam has a 1-hour time limit. (In some countries, the time limit may be extended.)

The AutoCAD 2011 Certified Professional exam is a performance-based test. The exam is comprised of 30 questions. Each question requires you to use AutoCAD 2011 to create or modify a data file, and then type your answer into an input box. The answer you enter will either be a text entry or a numeric value. The exam has a 90-minute time limit (in some countries, the time limit may be extended.)

To earn the credential of AutoCAD 2011 Certified Professional, you must also pass the AutoCAD 2011 Certified Associate exam. You can pass the exams in any order.

To recertify from AutoCAD 2010 Professional to AutoCAD 2011 Professional, you need only pass the AutoCAD 2011 Certified Associate exam.
