

**Exam 4
Text 1 Study Guide**

This guide will assist you in using the text to prepare for the unit exam. It does not include information from the class lectures (although some material from the book overlaps with material from the lectures). The class lecture material will be very important to study as well, as anything from those lectures could be on the exam.

I recommend that you use this guide to focus your attention on specific parts of the text that you will need to know for the exam, but do not do so to the exclusion of reading the chapters in their entirety. If you focus only on individual terms and pieces of information, you will miss the larger picture that comes with seeing how these terms are related to one another. You will probably need to read the text chapters very carefully a couple of times in order to absorb the information accurately. I encourage you to do this and to ask me questions about parts you find confusing before you take the exam.

Important Terms and Concepts

You should be able to define these terms. Do not just memorize the definitions word-for-word. If you do, you might run into trouble when you need to apply these terms to new scenarios on the exam. Instead, learn the meaning of these definitions- try to define them in your own words and then check the book's definition to see if you were accurate.

What to Know

Although the information in section 13.1 (How Do We Understand Ourselves? [pp. 461-469]) is interesting, I will NOT ask you questions about this material on the exam.

You should be familiar with the main ideas from the Psychodynamic, Humanistic, and Trait approaches to personality. Table 13.1 provides a nice summary. For the exam, I will NOT ask you questions about the social cognitive approaches.

Be familiar with the major parts of Freud's theory. Know the characteristics and functions of the id, ego, and superego. If I
