**Can't Scratch That Itch** Tim Griffin,2015-09-04 Tim I just finished reading your book I teared up 3 times and laughed twice You have done an amazing job I was thinking to myself how you and Karen are handling all of the changes with such grace The two of you are such an amazing team and have developed such strong communication skills you two could probably host a course for other married couples Another poignant moment for me was on the page where you wrote We also informed our family that we had the disease that did not have a cure I think the we in that statement is so true your book have you anticipated how you will share it You may want to consider both the MDA and ALSA ALS Association as outlets to share your story and tips I also think you should pass this along to some of your neurology providers I think your Prologue is an exceptional teaching tool for medical professionals I still cant stop thinking about how you continually think about your blessings I am going to tear up again and I am not a crier I thank you for allowing yourself to be vulnerable and sharing your experiences You are lucky to have found Karen and she is lucky to have found you Amy Callan OTR DOT Outpatient Occupational Therapy Supervisor

**Policy and Research Needs to Maximize Independence and Support Community Living** National Academies of Sciences, Engineering, and Medicine,Division of Behavioral and Social Sciences and Education,Institute of Medicine,Board on Health Sciences Policy,Forum on Aging, Disability, and Independence,2016-06-10 Living independently and participating in one s community are priorities for many people In many regions across the United States there are

programs that support and enable people with disabilities and older adults to live where they choose and with whom they choose and to participate fully in their communities Tremendous progress has been made However in many cases the programs themselves and access to them vary not only between states but also within states Many programs are small and even when they prove to be successful they are still not scaled up to meet the needs of the many people who would benefit from them The challenges can include insufficient workforce insufficient funding and lack of evidence demonstrating effectiveness or value To get a better understanding of the policies needed to maximize independence and support community living and of the research needed to support implementation of those policies the National Academies of Sciences Engineering and Medicine convened a public workshop in October 2015 Participants explored policies in place that promote independence and community living for older adults and people with physical disabilities and identified policies and gaps in policies that can be barriers to independence and the research needed to support changing those policies This report summarizes the presentations and discussions from the workshop

Topics discussed include the ways in which we interact with digital television the changing methods of production distribution and exhibition within the media industry and how the histories of traditional media have influenced the development of new media The New Media Book examines the corresponding influences that traditional media and new media are having upon each other as well as revisiting central continuing issues surrounding the moving image and the contexts in which all the media operate The collected essays present and redefine these crucially important topics providing the most systematic analysis of both change and continuity in the contemporary media landscape yet published in the field of screen studies
