## *The Constitution*

### Longevity

- **The Preamble:** defines the objectives of the Constitution
  - To form a more perfect union
  - To establish justice
  - To ensure domestic tranquility
  - To provide for the common defense
  - To promote the general welfare
  - To secure the blessings of liberty
- **The major factors creating longevity of the Constitution**
  - The separation of powers of each branch of government
  - Checks and balances including a recognition that a simple majority vote may not be enough of a check
  - A built in elastic clause as part of Congress's power
  - A reserved power clause giving states power not delegated to the national government
  - Rights guaranteed to the citizens
  - Precedents and traditions creating an unwritten constitution
  - Judicial review growing out of an interpretation of the power of the Supreme Court
  - An amending process, which is flexible enough to allow for change even though it involves more than a majority vote
  - The inherent powers of the president

### Branches of Government

- **Article I:** the legislative powers of Congress
  - Bicameral legislature:
    - The House of Representatives: the body most directly responsible to the people
    - Senate: makeup based on equal representation, joins in a partnership with the House in passing laws.
  - Rules of Impeachment
  - Public view of Congress has continued to deteriorate since the 1970s.
    - Oct 2005: 75% of people questioned were critical of Congress
    - A majority of people indicated that they would vote for their incumbent
  - 1995 *Thornton v Arkansas*: state-imposed term limits were unconstitutional, indicating that the only way congressional terms could be altered was through an amendment

### Powers of the Chief Executive

- **Article II:** the nature of the chief executive, gives responsibility to a president and vice president.
