Video Guide - Unit 6 WHAP Review (c. 1750-1900 CE)—Consequences of Industrialization

QUESTIONS	ANSWERS	EXTRA INFO
Changes due to Industrialization		
1. What demographic shift was inspired by industrialization?	1. Many people migrated to cities seeking work, thereby increasing urbanization.	1. Learning Objective 6.6.F Most migrants both internal and external moved to cities. This pattern contributed to the significant global urbanization of the 19th century.
2. How did world power shift during the Industrial Revolution?	2. The wealth and power of industrial nations grew larger than those who did not industrialize. The balance of power in the world shifted to those who industrialized.	2. Learning Objective 5.4.E This helps to explain how the locations and modes of production have developed and changed over time. The rapid development of steam-powered production in European countries and the United States contributed to the increase in these regions' share of global manufacturing during the first Industrial Revolution. While Middle Eastern and Asian countries continued to produce manufactured goods, these regions' share in global manufacturing declined, for example textile production in Egypt and India could not compete with the mechanized production in Britain.
Imperialism		
3. How did industrialization lead to imperialism, or the desire for more colonies?	3. Industrialized nations were seeking raw materials for their factories. Industrialized states felt superior to those who hadn't industrialized. Because most of these places were not in Europe part of this was white superiority based in racist ideology that began with the 15th century trans-Atlantic slave trade.	3-5. Learning Objective 6.1.A This helps to explain how ideologies contributed to the development of imperialism from 1750-1900. A range of cultural, religious, and racial ideologies were used to justify imperialism, including Social Darwinism, nationalism, the concept of the civilizing mission (The White Man's Burden), and the desire to religiously convert indigenous populations. Manifest Destiny in the United States was another ideology used to justify imperialism.
4. What was Social Darwinism? How was it used to justify imperialism?	4. Based on Charles Darwin's theory of evolution, it was the belief that the strong always defeat the weak. Therefore, powerful nations should defeat weaker ones just as the rich can dominate the poor. It was believed to be natural.
