6. **Industrialization:** Originated in England in the 17th century, diffused to Europe and then to the Americas.

**2. Describe new technologies of the 1450 - 1750 time period and specific examples of how they facilitated patterns of trade and travel from 1450 to 1750.**

The 1450-1750 period was an era of significant technological advancements, which had a profound effect on the development of trade and travel.

One of the most important technologies of this time period was the invention of the caravel, a new type of sailing ship with lateen sails. Caravels allowed merchants to travel faster and further than ever before, facilitating the expansion of trade networks to new parts of the world. For example, in 1488, Portuguese explorer Bartolomeu Dias used a caravel to successfully reach the tip of Africa, opening up the route for the lucrative trade of African gold and slaves.

Another important technology of this time period was the invention of the compass, which allowed sailors to navigate more accurately than before. This enabled them to explore further and more confidently, and allowed for the growth of trade networks in
