

Chapter 3 Study Guide

1. Using the links in "Activities and Resources", especially the Crash Course videos, develop a chart to compare and contrast prokaryotic cells from eukaryotic cells.
2. Describe the smallest unit of life and distinguish between unicellular and multicellular organisms. Give multiple examples of each.
3. List the major organelles and structures of a eukaryotic cell and describe the function of each part.
4. List and describe the major parts of a light microscope. Also arrange the parts of the microscope tracing the light source through the scope.
5. List and describe the structure and composition of the cell membrane. What is the function of the cell membrane?
6. What is a concentration gradient? Define the terms hypotonic, isotonic, and hypertonic. Explain the direction of the solute and the solvent in each case.
7. Compare and contrast between passive and active transport. Present at least 2 examples of passive transport and 2 examples of active transport. Develop a table to present this information.
8. Describe the function of Na/K ATPase. Include the general type of transport it performs, the stimulus it uses to change shape and the direction it moves ions.
9. List and describe 3 forms of endocytosis. Include the substance moved by each and whether or not the process is specific.
10. Compare and contrast diffusion and osmosis. Develop a table to present this information.
11. Using course materials explain the factors that effect the rate of diffusion through a membrane.

Origins of the Universe, Life and Species Plammoottil Cherian, 2018-03-22 The relationship between science and theology has been a crisis for humanity since Darwin's publication of Origin of Species that affects the very core of scientific and Biblical truths with serious consequences In this detailed and absorbing book Dr Cherian provides astounding facts of science that were deciphered in the last 500 years each of which is recorded in the Biblical Scriptures Heeding back to the Biblical account of creation Dr Cherian takes the readers from the erroneous notion of the origin of the universe without a cause and abiogenesis as the source of life to the latest scientific discoveries that corroborate the Biblical evidence for divine creation of the universe life and species that dispel Darwinian evolution The Origins of the Universe Life and Species sheds much light for a better understanding of the Scriptures that were hidden to many scientists researchers and students to relate the scientific discoveries that reveal the Biblical truths for a better appreciation of the unknown God who reveals himself through the many scientists and their discoveries Dr Cherian uses all branches of science from astronomy to zoology connecting the dots between science and theology that stretches from the highest of heavens outer space to the deepest of ocean floor revealing the unknown God to be the KNOWN GOD

Creation or Evolution? Michael Ebifegha, 2011-03-31 Were humans created or did they evolve This debate continues to rage between science and religion In Creation or Evolution author Michael Ebifegha examines these two worldviews within the framework of science He examines the constraints of science as an explanatory framework for the origin of species and compares the contemporary world to a hypothetical world under the influence of evolutionary processes and agency Additionally he considers the irrelevance of the earth's age to the creationist evolutionist controversy He stresses that knowledge of the intersection between the origin of life and the origin of species is required to establish the latter Ebifegha augments the natural selection discussion in light of Fodor and Piattelli Palmarinis work and addresses sciences limitations in deploying similarity dissimilarity arguments in the debate about creationism versus evolutionism Finally he focuses on the lack of historical evidence to justify an evolutionary worldview Creation or Evolution discusses how the M theory and Charles Darwins paradigm of evolution by natural selection

are outside the limits of science Ebifegah shows that we must look beyond the inadequacy of such theories and address the validity of science as the sole avenue of inquiry Biology a Guide to the Natural World David Krogh,Laurel Robeerts,2002
