**Rail Transport—Systems Approach** Aleksander Ślaskowski, 2017-03-08 This book shows how the systems approach is employed by scientists in various countries to solve specific problems concerning railway transport. In particular, the book describes the experiences of scientists from Romania, Germany, the Czech Republic, the UK, Russia, Ukraine, Lithuania, and Poland. For many of these countries, there is a problem with the historical differences between the railways. In particular, there are railways with different rail gauges, with different signaling and communication systems, with different energy supplies, and finally with different political systems, which are reflected in the different approaches to the management of railway economies. The book's content is divided into two main parts: the first of which provides a systematic analysis of individual means of providing and maintaining rail transport. In turn, the second part addresses infrastructure and management development, with particular attention to security issues. Though primarily written for professionals involved in various problems concerning railway transport, the book will also benefit manufacturers, railway technical staff, managers, and students with transport specialties, as well as a wide range of readers interested in learning more about the current state of transport in different countries.

**Port towage in New Zealand** Peter J. Brom, 2023-07-04 This book deals with towage in the New Zealand ports. Due to the geographical location of New Zealand, the ports have to deal with very diverse nautical conditions. It shows how regional councils decide what the best solution is for their port towing service. This has resulted in an interesting variety of tailor-made tugboats. However, in recent years, there has been a development towards the use of more standard types of tugboats. Furthermore, this book deals with the commercial companies that operate from these ports. These are companies in the field of marine construction, dredging, salvage, and transport. The tugboats operated by those companies are also covered in this book.

Peter J. Brom, 1953 was born in Amsterdam. As a young man, he became fascinated by the many tugs in the Netherlands. Since then, he has followed the towage industry and wrote about it among other things in the monthly magazine *Lekko*.
