## Introduction

The TEAS study format, and the information for the Test of Essential Academic Skills (TEAS) Test Book, are included in this guide along with information for effectively preparing for the test. Also, this guide will outline the parts of the test. The TEAS course is a broad range of essential skills in reading, math, science, and English and is designed to help you learn developed over the course of your academic career. Now, this guide will help you create a study plan to succeed in each subject area. Finally, this study guide provides features covering each discipline of the TEAS test plan. Contents include: overview, diagrams, and practice questions to help you better lay them. Each domain ends with practice questions similar to those you will encounter on the TEAS. A detailed explanation of the correct answer for each question is also included to ensure you understand how concepts that will appear on the TEAS.

### TEAS SUBJECT AREAS

The TEAS test was designed for health science students to measure the academic preparedness of prospective students. Questions on the TEAS assess student knowledge of key disciplines that address areas presented in greater detail in the respective discipline books and concepts that health science students learn as they prepare for success in health science programs. The disciplines cover the academic subject areas of:

- Reading
- Math
- Science
- English and Language Usage

The TEAS course is the national practice questions for each of the key disciplines of the TEAS. Help to ensure that the resources provided in the TEAS are not compromised. They do not include all of the possible content appropriate to the discipline. The disciplines do, however, provide a clear overview of the content and skills you will encounter on the TEAS.

### TEAS QUESTIONS

The TEAS is composed of five books that include 30 answered practice items, the majority of which are four options, multiple choice questions. With the introduction of the TEAS 7.0 test plan in 2024, additional test types will start to be incorporated into the test. These include:

- Multiple select (select all that apply)
- Apply content (20 in the TEAS, content required)
- Ordering (one option in the correct sequence)
- Drag and drop (no use of an image)

The test is available in both paper and online multiple-choice questions only, and computer-administered format. Questions from the four subject areas are grouped to measure students, and each has a separate, individual score book. The following table provides the number of questions and time limits for each section of the TEAS, listed in order of administration.
