was destined to become a collector's item. Consequently, we are pleased to offer this updated and expanded version of the original Floyd Clymer manual as a service to all 750cc S O H C Honda owners, enthusiasts, and restorers worldwide. Finally, please note that the text in the original manual was translated from Japanese into English. Consequently, some of the phrasing, grammar, punctuation, and word usage may be subtly different from that commonly used in the English language. However, the information as presented is readily understandable. In addition, while we have done our best to identify any anomalies and errors that may have occurred during the original translation process, we are certain that we will have missed one or two, and we request your indulgence in ignoring them.

Honda 1971-1978 Workshop Manual 4-Cylinder Cb500, Cb550 & Cb550f Super Sport Floyd Clymer, 2023-05-24, 194 pages and more than 500 illustrations and charts, size 8.25 x 10.75 inches. This Workshop Manual is a compilation of various Honda Factory Manuals for the three variants of the 500cc and 550cc four-cylinder models manufactured from 1971 through 1978. The original CB500 released in 1971 ultimately morphed into the 1974 CB550 and the 1975 CB550F Super Sport. The original base 500cc manual was expanded by the factory to include the CB550 and subsequently updated with supplements for the later models. It covers the 1971, 1973 K0, K1, a CB550 76 would be a 1976 USA model but in most other countries that same model would be identified as a CB550K2. Setting this potential for confusion aside, we can state that this manual covers the entire 1971 through 1978 range of 500cc and 550 cc four-cylinder models. After his visit to Japan in 1961, Floyd Clymer published *The Complete Catalog of Japanese Motor Vehicles* (ISBN 9781588502209). Based on his experiences during that visit, Floyd also anticipated the need for repair manuals for those Japanese motorcycles that were just starting to be imported into the USA (Yamaha 1958, Honda 1959, Suzuki 1963). The predominance of the Floyd Clymer Japanese motorcycle manuals were either reprints or compilations of the factory publications, which today makes them more desirable than the current aftermarket manuals.
