Paperbound Books in Print 1995 Reed Reference Publishing, Reference Reed, 1995-12 *Solutions Manual and Commentary to Accompany Advanced Calculus, Second Edition* Robert Creighton Buck, Ellen F. Buck, 1969 [Programming Languages and Systems](#) Wei-Ngan Chin, 2004-10-19 On behalf of the organizing committee I would like to welcome you all to the second Asian Symposium on Programming Languages and Systems APLAS 2004 held in Taipei on November 4-6, 2004. Since the year 2000 researchers in the area of programming languages and systems have been meeting annually in Asia to present their most recent research results thus contributing to the advancement of this research area. The last four meetings were held in Singapore 2000, Daejeon 2001, Shanghai 2002, and Beijing 2003. These meetings were very fruitful and provided an excellent venue for the exchange of research findings and experiences in programming languages and systems. APLAS 2004 is the fifth such meeting and the second one in symposium setting. The first symposium was held in Beijing last year. The success of the APLAS series is the collective result of many people's contributions. For APLAS 2004, I would like to thank all the members of the Program Committee, in particular the Program Chair Wei-Ngan Chin for their hard work in putting together an excellent program. I am most grateful to invited speakers Joxan Jarra, Frank Pfennig, and Martin Odersky who have traveled a long way to deliver their speeches at APLAS 2004. I would like to thank all the referees who helped review the manuscripts, the authors who contributed to the proceedings of APLAS 2004, the members of the Organizing Committee who made considerable effort to organize this event, and all the participants present at this meeting. Without your support, this symposium would not have been possible. Finally, I would like to acknowledge the support of the Asian Association for Foundation of Software and Academia Sinica, Taiwan.
