

GUI[Graphical User Interface]

By using Java programming language, we are able to prepare the following two types of applications.

1. CUI Applications
2. GUI Applications

Q)What is the difference between CUI Application and GUI Application?

Ans:-

UltamSoul

CUI Application is a Java application, it would be designed in such way that to take input from command prompt and to provide output on the same command prompt , where command prompt is acting as an user interface and it is supporting character data.

GUI Application is a Java application, it would be designed in such way that to take input from the collection of Graphics application and to provide output on the same Collection of Graphics components, where the collection of graphics components is acting as an user interface and it is supporting graphics data.
