## **Chapter Land And Soil Resources Wikispaces:**

*Selling America* Christina A. Ziegler-McPherson, 2017-02-16 An in depth look at the motivations behind immigration to America from 1607 to 1914 including what attracted people to America who was trying to attract them and why Between 1820 and 1920 more than 33 million Europeans immigrated to the United States seeking the American Dream an image of America as a land of opportunity and upward mobility sold to them by state governments railroads religious and philanthropic groups and other boosters But Christina A Ziegler McPherson shows that the desire to make and keep America a white man s country meant that only Northern Europeans would be recruited as settlers and future citizens while Africans Asians and other non whites would either be grudgingly tolerated as slaves or guest workers or be excluded entirely This book reframes immigration policy as an extension of American labor policy and connects the removal of American Indians from their lands to the settlement of European immigrants across the North American continent Ziegler McPherson contends that western and midwestern states with large American Indian Asian or Mexican populations developed aggressive policies to promote immigration from Europe to help displace those peoples while Southern states sought to reduce their dependency upon Black labor by doing the same Chapters highlight the promotional policies and migration demographics for each region of the United States
