Dhs Report Left Wing Extremism:

Right-Wing Resurgence Daryl Johnson, 2012-09-14 In 2008 there were 149 militia groups in the United States In 2009 that number more than tripled to 512 and now there are nearly 600 In Right Wing Resurgence author Daryl Johnson offers a detailed account of the growth of right wing extremism and militias in the United States and the ever increasing threat they pose The author is an acknowledged expert in this area and has been an intelligence analyst working for several federal agencies for nearly 20 years The book is also a first hand insider s account of the DHS Right Wing Extremism report from the person who wrote it It is a truthful depiction of the facts circumstances and events leading up to the leak of this official intelligence assessment The leak and its aftermath have had an adverse effect on homeland security Because of its alleged mishandling of the situation the Department s reputation has declined in the intelligence and law enforcement communities and the analytical integrity of the Office of Intelligence and Analysis was undermined Most importantly the nation s security has been compromised during a critical time when a significant domestic terrorist threat is growing This book is replete with case studies and interviews with leaders which reveal their agendas how they recruit and how they operate around the country It presents a comprehensive account of an ever growing security concern at a time when this threat is only beginning to be realized and is still largely ignored in many circles

Counterterrorism Benoît Gomis, 2015-07-17 Counterterrorism Reassessing the Policy Response promotes a more nuanced understanding of the effectiveness of current counterterrorism practices and the need for reform It challenges government media and academic accounts that exaggerate terrorist threats particularly in comparison to other threats such as organized crime Author BenoGomis r

Hateland Daryl Johnson, 2019 A former Department of Homeland Security analyst takes a long view on the domestic terrorism threat from radicalized individuals and hate groups of various ideologies America is a land in which extremism no longer belongs to the country s shadowy fringes but comfortably exists in the national mainstream That is the alarming conclusion by intelligence analyst Daryl Johnson an expert on domestic extremism with more than twenty five years of experience tracking radicalized groups for the US government In this book Johnson dissects the rapidly expanding forms of American hatred and radicalization including white nationalists antigovernment militias antifascists Antifa militant black nationalists and extremist Islamic groups The author develops a concise model that explains how extremists on both the far right and the far left use the same techniques to recruit and to radicalize individuals turning them into violent offenders He also examines the political forces that fuel this threat and have kept the US government from properly identifying and developing countermeasures to deal with it including a disproportional emphasis on Islamic terrorism Johnson concludes by recounting individual stories of deradicalization each of which was the result of personal reevaluations of formerly held extremist convictions He recommends more resources at the state and federal levels for combatting radical movements and urges greater communication and coordination between law enforcement agencies This in depth analysis of a growing menace that has
