Insights in Sound David Baker, Lucy Green, 2017-03-27 Music has long been a way in which visually impaired people could gain financial independence excel at a highly valued skill or simply enjoy musical participation Existing literature on visual impairment and music includes perspectives from the social history of music ethnomusicology child development and areas of music psychology music therapy special educational needs and music education as well as more popular biographical texts on famous musicians But there has been relatively little sociological research bringing together the views and experiences of visually impaired musicians themselves across the life course *Insights in Sound Visually Impaired Musicians Lives and Learning* aims to increase knowledge and understanding both within and beyond this multifaceted group Through an international survey combined with life history interviews a vivid picture is drawn of how visually impaired musicians approach and conceive their musical activities with detailed illustrations of the particular opportunities and challenges faced by a variety of individuals Baker and Green look beyond affiliation with particular musical styles genres instruments or practices All levels are included from adult beginners to those who have returned to music making after a gap and from regular amateur and professional musicians to some who are extraordinarily elite or successful Themes surrounding education training and informal learning notation and ear playing digital technologies and issues around disability identity opportunity marginality discrimination despair fulfilment and joy surfaced as the authors set out to discover analyse and share insights into the worlds of these musicians

The Report: Oman 2016 Oxford Business Group, 2016-01-12 Oman s GDP grew 4.6% between 2013 and 2014 according to the Oman Central Bank with hydrocarbons the main driver of the economy at almost 50% of GDP Although the dip in oil prices has put pressure on government revenues authorities are pressing ahead with spending plans for the sector

particularly in the downstream segment The country s infrastructure expansion plans are also moving forward particularly at the country s three ports as the country seeks to leverage its strategic position on the Strait of Hormuz and establish itself as a global transport and logistics hub Feeding off this development drive are the sultanate s banks with project finance regarded as one of the most promising areas for lending growth In the longer term Oman Vision 2020 seeks to boost private sector participation in the economy and fuel SME growth in key sectors including construction retail tourism and transport

Coherence between Data Protection and Competition Law in Digital Markets Klaudia Majcher,2023-10-09 In digital markets data protection and competition law affect each other in diverse and intricate ways Their entanglement has triggered a global debate on how these two areas of law should interact to effectively address new harms and ensure that the digital economy flourishes Coherence between Data Protection and Competition Law in Digital Markets offers a blueprint for bridging the disconnect between data protection and competition law and ensuring a coherent approach towards their enforcement in digital markets Specifically this book focuses on the evolution of data protection and competition law their underlying rationale their key features and common objectives and provides a series of examples to demonstrate how the same empirical phenomena in digital markets pose a common challenge to protecting personal data and promoting market competitiveness A panoply of theoretical and empirical commonalities between these two fields of law as this volume shows are barely mirrored in the legal enforcement policy and institutional approaches in the EU and beyond where the silo approach continues to prevail The ideas that Majcher puts forward for a more synergetic integration of data protection and competition law are anchored in the concept of sectional coherence This new coherence centred paradigm reimagines the interpretation and enforcement of data protection and competition law as mutually cognizant and reciprocal allowing readers to explore in an innovative way the interface between these legal fields and identify positive interactions instead of merely addressing inconsistencies and tensions This book reflects on the conceptual practical institutional and constitutional implications of the transition towards coherence and the relevance of its findings for other jurisdictions
