Education Mania Joshua Flapan, 2023 Education Mania Is a University The New Doctor is about people who think that a college degree is a real degree In fact the doctorate is doing the goals of the college In many ways the full benefits of a college degree go to the doctorate Like in the majors in the field of engineering psychology and English there are a lot of college grads around the world who face the food stamp line and it is contrary to how the university gets people a job The scandal involves an essay and dissertation That is an approximately five chapter essay Also the book has introductions to explain to the reader how a university degree becomes a new doctor My book explores solutions to subject areas that prove the doctor is the new college The solutions include having college to nothing getting rid of the bus child labor and apprentices

An Age of Accountability John L. Rury, 2023-10-13 An Age of Accountability highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree
