SECTION A

Question 1

a) (i) Two forms of assistance offered by the Government of Botswana:

1. Through the Temo Letlotlo programme, the government provides seasonal loans to medium- and large-scale farmers via the National Development Bank (NDB) to support the purchase of inputs and boost productivity.
2. For household food security, the programme offers 100% subsidies on input supplies to low-income microscale farmers, empowering them to grow crops for their own consumption.

(ii) One reason for the surplus in the Balance of Payments current account in 2022:

- A substantial increase in export earnings improved trade performance, contributing to the surplus.

b) PPC Impact:

Temo Letlotlo can increase agricultural productivity, shifting the production possibility curve (PPC) outward. This reflects an increase in the country's productive capacity due to better input access and farming efficiency.

c) Two effects of increased interest rates on businesses:

1. Higher Borrowing Costs: Businesses will face increased costs of obtaining credit, reducing investment and expansion.
