Lancet

Instructions for Use

The ACCU-CHEK Softclix Plus lancing device uses ACCU-CHEK Softclix lancets to obtain a drop of blood from the fingertip. The penetration depth can be selected to match any type of skin.

The cap is for fingertip lancing only.

The lancet cap is for lancing on skin other than the fingertip. Do not use the lancet cap for fingertip lancing.

Note: The ACCU-CHEK Softclix Plus cap was not designed to be replaced after each use. The ACCU-CHEK Softclix Plus lancing device is intended for use by a single person and is not suitable for lancing multiple persons due to the risk of infection.

Selecting the Depth

The depth of the ACCU-CHEK Softclix Plus lancing device can be adjusted by turning the Control Dial. The current depth number is shown in the center of the depth indicator window. You can find the depth indicator window as a semi-circle cutout on the cap.

The ACCU-CHEK Softclix Plus lancing device offers 11 depth settings. The settings are shown in the depth indicator window by the numbers 1 to 11 with additional marks marked with dots to enable you to precisely adjust to your individual skin type. The higher the number visible in the Control Dial, the greater the depth setting.

Note: If you are using the ACCU-CHEK Softclix Plus lancing device for the first time, start by selecting 1 or 2 to see if the amount of blood obtained is enough to perform a test. If your skin is calloused or thick, you may need to try a higher setting.

- 1 To select the desired depth setting, turn the Control Dial so that the desired setting is in the center of the depth indicator window.

- 2 Select a new depth setting by turning the Control Dial. The cap will stop with a new position, preventing any accidental change of the depth setting.

Performing a Fingertick

- 1 Remove the colored cap of the lancing device by using your thumb and finger to pull it off the recessed area. If there is already a lancet in the device, remove it by holding the lancing device so that the lancet points downwards and pressing the plunger. Refer to the section called "Releasing the Lancet".

- 2 Firmly insert a new ACCU-CHEK Softclix lancet in the lancet holder until it snaps into place.

- 3 Push the probe far up on the lancet several times and pull gently to return it.

- 4 Wrap up the colored cap after using up the lancets. The cap must wrap the place.

- 5 Select the desired depth setting as instructed in the section "Selecting the Depth". Then, press the plunger at the end of the lancing device at the way down until it stops. Wait again. The lancing device is now ready to use.

- 6 Now, wash your hands and dry them thoroughly. Then, warm the finger to increase blood flow. If you are using alcohol swabs, make sure your finger is completely dry before continuing.

- 7 Wrap your finger over the area to be pricked and gently massage for three seconds.

- 8 Hold the lancing device firmly against the side of your fingertip. Then, press and release the plunger firmly against your fingertip to get a small drop of blood.

The best place to feel on the fingertip is the side, because it has the best blood supply, and allows for the best possible fingertick. Any finger may be used for a fingertick.

- 9 Touch and feel the blood drop to the blood patch on the end of the ACCU-CHEK Compact Test strip. Contact the section "Running a Blood Sugar Test with Blood from Your Fingertip" of your ACCU-CHEK Compact Plus system's owner's manual to learn more.

- 10 Immediately remove used lancet. To avoid accidental injury, do not share lancet to device.

Releasing the Lancet

- 1 To remove the lancet out of the cap of the ACCU-CHEK Softclix Plus lancing device.

- 2 Hold the holder to the lancet gently downwards. Press the plunger to release the lancet into a puncture-proof container. Always dispose in accordance with the local regulations.

To avoid infection, use a new lancet each time you perform a fingertick.

Reminder

Remember, you can use your lancing device attached to or detached from the ACCU-CHEK Compact Plus meter.

- 1 To remove lancing device, slide and hold down on the release button end, at the same time, pull down on the lancing device to remove it from the meter.

- 2 Attach the lancing device by bring up the release and sliding it until it snaps into place. The lancing device snaps easily into place.
