

13.3 – Cold War Conflicts 496-501

Guiding Questions: What common factor triggered the “hot” wars in Asia during the Cold War, and how did nuclear weapons influence political relations during the Cold War?

1. What were the two superpowers who emerged after WWII?

The two superpowers that emerged after WWII were the United States and the Soviet Union.

Superpower - a state with a dominant position characterized by its extensive ability to exert influence or project power on a global scale.

2. What were Proxy Wars? Why did the United States and the Soviet Union not want to fight each other directly?

A proxy war occurs when two powers in conflict use substitutes instead of fighting each other directly. Armed with nuclear arsenals, neither the U.S. nor the Soviet Union wanted to fight each other directly.

3. What are SEATO and CENTO? Why were they formed by the United States?

The Southeast Asia Treaty Organization (SEATO) was made to stem communist aggression in the East. The Central Treaty Organization (CENTO) was meant to prevent Soviet expansion into the Middle East.

4. In addition to wars in Korea and Vietnam, what other areas does the text list as proxy conflict points?

In addition, a Cold War proxy conflict almost turned into a major nuclear war over the small island of Cuba, Congo and Chile.

“hot” war - as opposed to a “cold” war, a hot war is a conflict with actual armed fighting.

5. How was Korea divided along the 38th parallel after 1945? What side was Communist and what side was anti-Communist?

In August of 1945, the Soviet Union and the United States agreed to divide Korea into two zones of the 38th Parallel. The plan was to hold elections after WWII to reunify Korea. As America-Soviet relations grew worse, however, two separate governments emerged in Korea, Communists in North and Anti-Communists in South.

parallel - a line on the globe that marks an area north or south of the equator. For example, the US-Canada border sits mostly on the 49th parallel.

6. When the Communist North Koreans invaded anti-communist South Korea in June, 1950, who supported the North Koreans?

President Harry S Truman of the United States, seeing this as another example of Communist aggression and expansion, gained the approval of the United Nations and sent US troops to repel the invaders.

7. How did President Harry Truman respond to the communist invasion of South Korea? Who gave approval of this response?

President Harry S. Truman committed United States air, ground, and naval forces to the combined United Nations forces assisting the Republic of Korea in its defense.

Chapter 1 Cold War Conflicts Answer Key:

War and Conflict in Africa Paul D. Williams, 2013-04-26 After the Cold War Africa earned the dubious distinction of being the world's most bloody continent. But how can we explain this proliferation of armed conflicts? What caused them and what were their main characteristics? And what did the world's governments do to stop them? In this fully revised and updated second edition of his popular text, Paul Williams offers an in-depth and wide-ranging assessment of more than six hundred armed conflicts which took place in Africa from 1990 to the present day, from the continental catastrophe in the Great Lakes region to the sprawling conflicts across the Sahel and the web of wars in the Horn of Africa. Taking a broad comparative approach to examine the political contexts in which these wars occurred, he explores the major patterns of organized violence, the key ingredients that provoked them, and the major international responses undertaken to deliver lasting peace.

Part I: Contexts provides an overview of the most important attempts to measure the number, scale, and location of Africa's armed conflicts and provides a conceptual and political sketch of the terrain of struggle upon which these wars were waged.

Part II: Ingredients analyses the role of five widely debated features of Africa's wars: the dynamics of neopatrimonial systems of governance, the construction and manipulation of ethnic identities, questions of sovereignty and self-determination, as well as the impact of natural resources and religion.

Part III: Responses discusses four major international reactions to Africa's wars, attempts to build a new institutional architecture to help promote peace and security on the continent, and the two main policy instruments: peacemaking initiatives and peace operations, and efforts to develop the continent.

War and Conflict in Africa will be essential reading for all students of international peace and security studies, as well as Africa's international relations.

Conflict and Development Roger Mac Ginty, Andrew Williams, 2009-03-24 Over the past decade, a new awareness of the relationship between conflicts and development has grown. Developmental factors can act as a trigger for violence, as well as for ending violence and for triggering post-conflict reconstruction. This book explores the complexity of the links between violent conflict—usually civil wars—and development, underdevelopment, and uneven development. It emphasizes the connections between stable, developed economies and civil wars in other parts of the world and examines how structural factors, such as the organization of the global economy, virtually condemn some regions to conflict and underdevelopment. This valuable introductory text explains, reviews, and critically evaluates this complex relationship. It focuses on intra-state conflicts and complex political emergencies that combine transnational and internal characteristics. Attention is also given to inter-state conflicts. Chapters emphasize how the relationship between conflict and development traverses many scales: macro, meso, and micro, and dimensions: economic, political, and cultural. Furthermore, it explains how different developmental challenges and opportunities emerge along the full life cycle of conflict. Specifically, the role of poverty, state, market, civil society, globalization, humanitarian aid, refugees, gender, and health within conflict dynamics are examined. The book also investigates specific developmental issues emerging during conflict management and post-conflict reconstruction. Both

authors have a background in conducting research in deeply divided societies and argue that many of the processes connected with war and peace making deliberately write people out of the equation This book attempts to write people in By drawing on contemporary theoretical debates and examining current policies and events the text unpacks the difficult and complex aspects of the relationships between armed conflict and development and makes them accessible interesting and policy relevant It considers how peace making peace building and post war reconstruction are usually more sustainable and successful if politicians policy makers entrepreneurs and those working for international NGOs take on board local opinion and capacity Written in an accessible style the book considers the main contemporary theories and arguments on conflict development and the interactions between the two The text is illuminated throughout with case studies drawn from Africa the Balkans Asia and the Middle East

Global Problems, Smart Solutions Bjørn Lomborg, 2013-11-14 Every four years since 2004 the Copenhagen Consensus Center has organized and hosted a high profile thought experiment about how a hypothetical extra 75 billion of development assistance money might best be spent to solve twelve of the major crises facing the world today Collated in this specially commissioned book a group of more than 50 experts make their cases for investment discussing how to combat problems ranging from armed conflicts corruption and trade barriers to natural disasters hunger education and climate change For each case Alternative Perspectives are also included to provide a critique and make other suggestions for investment In addition a panel of senior economists including four Nobel Laureates rank the attractiveness of each policy proposal in terms of its anticipated cost benefit ratio This thought provoking book opens up debate encouraging readers to come up with their own rankings and decide which solutions are smarter than others

Contemporary Conflict Resolution Oliver Ramsbotham, Tom Woodhouse, Hugh Miall, Harmonie Toros, 2024-10-11 The indispensable guide to conflict resolution in a troubled world Conflict prevention and resolution peacekeeping and peacebuilding have never been more important as priorities on the global agenda The wars in Ukraine and Gaza and tensions between the major powers in what is now a multi polar world require new conflict resolution responses The fifth edition of this hugely popular text offers a commanding overview of today's changing conflict landscape and the latest developments and new ideas in the field Fluently written in an easy to follow style it guides readers carefully through the key concepts issues and debates evaluates successes and failures and assesses the main challenges for conflict resolution today Comprehensively updated and illustrated with new case studies the fifth edition returns to its favoured twelve chapter format It remains the leading text for students of peace and security studies conflict management and international politics as well as policy makers and those working in NGOs and think tanks

Military Strategy in an Era of Unipolar Demise Håkan Edström, Jacob Westberg, 2024-11-15 This book presents a systematic comparison of the military strategies pursued by five great powers eight major middle powers and eight middle powers during the early twenty first century In addition to mapping the strategic priorities of these states the study develops and applies a theoretical framework to explain differences

and similarities in their strategic priorities Moreover the work evaluates how the stability of the present international system and the US led liberal international order LIO is affected by the strategies pursued by the US and other leading states The book aims to contribute to previous research in three ways First it intervenes in the debate on the stability of the unipolar system and the US led international order by offering a theoretical framework and an empirical approach for exploring and explaining the strategic priorities and defence strategies of different categories of states Second it aims to fill a void in research on strategy the lack of a comparative and systematic approach to contemporary strategy that facilitates and guides systematic comparisons and analyses of the alignment and military strategies pursued by both major powers and less powerful states Third it provides an empirical contribution to the debate on the stability of the unipolar system and the US led international order by presenting a documentation of the strategic priorities of 21 states based on primary sources consisting of official documents such as national security and defence strategies and defence bills In the conclusion the authors summarise the empirical findings on the system level the regional level and the unit level and present their overarching conclusions for the whole project This book will be of much interest to students of military and strategic studies defence studies foreign policy and international relations in general

The End of the Middle East Peace Process Samer Bakkour, 2022-06-23 Presenting the Middle East peace process as an extension of US foreign policy this book argues that ongoing interventions justified in the name of peace sustain and reproduce hegemonic power With an interdisciplinary approach this book questions the conceptualisation and general understanding of the peace process The author reinterprets regional conflict as an opportunity for the US through which it seeks to achieve regional dominance and control Engaging with the different stages and components of the peace process he considers economic military and political factors which both changed over time and remained constant This book covers the US role of mediation in the region during the Cold War the history and present state of US Israel relations Syria s reputation as an opponent of peace compared with its participation in peace negotiations and the Palestinian Israel conflict with attention to US involvement The End of the Middle East Peace Process will primarily be of interest to those hoping to gain an improved understanding of key issues concepts and themes relating to the Arab Israeli conflict and US intervention in the Middle East It will also be of value to those with an interest in the practicalities of peacebuilding

Women, Gender Equality, and Post-Conflict Transformation Joyce P. Kaufman, Kristen P. Williams, 2016-10-04 The end of formal hostilities in any given conflict provides an opportunity to transform society in order to secure a stable peace This book builds on the existing feminist international relations literature as well as lessons of past cases that reinforce the importance of including women in the post conflict transition process and are important to our general understanding of gender relations in the conflict and post conflict periods Post conflict transformation processes including disarmament demobilization and reintegration DDR programs transitional justice mechanisms reconciliation measures and legal and political reforms which emerge after the formal hostilities end

Majority Rule Versus Consensus James H. Read, 2009 This text sheds light on the promise and limitations of democracy showing that despite the failure of Calhoun's remedy his diagnosis of the potential injustice of majority rule must be taken seriously

The Cold War and After Marc Trachtenberg, 2012 A new way of looking at international relations from a leading expert in the field What makes for war or for a stable international system Are there general principles that should govern foreign policy In *The Cold War and After* Marc Trachtenberg a leading historian of international relations explores how historical work can throw light on these questions The essays in this book deal with specific problems with such matters as nuclear strategy and U S European relations But Trachtenberg's main goal is to show how in practice a certain type of scholarly work can be done He demonstrates how in studying international politics the conceptual and empirical sides of the analysis can be made to connect with each other and how historical theoretical and even policy issues can be tied together in an intellectually respectable way These essays address a wide variety of topics from theoretical and policy issues such as the question of preventive war and the problem of international order to more historical subjects for example American policy on Eastern Europe in 1945 and Franco American relations

during the Nixon Pompidou period But in each case the aim is to show how a theoretical perspective can be brought to bear on the analysis of historical issues and how historical analysis can shed light on basic conceptual problems
