NARRATIVE PARAGRAPH

The Mysterious Key

¹ Ben did not remember when he first saw the key. ² It was a long, slender, silver key, and it had a faded red ribbon tied to it. ³ He did not tell anyone that he had found it in the center drawer of his grandfather's old oak desk. ⁴ He wondered what was the key for, so he walked from room to room in his grandparents' house, searching for a lock the key would open. ⁵ In his grandparents' bedroom, inside the nightstand next to the bed, Ben found a small wooden box. ⁶ The key fit! ⁷ What he found inside the box took his breath away. ⁸ He quickly locked the box, put it back into the nightstand, ran out of the bedroom, and placed the key back into the center drawer of his grandfather's desk. ⁹ Whether he ever told anyone was in the box also remains a mystery to this day.

Chapter 1 noun Clauses Azargrammar Com:

Clauses Chandralekha Mathur, 2003 **The Clause in English** Peter Collins, David A. Lee, 1999

The focus in this volume is on grammatical aspects of the clause in English presenting a fine balance between theoretically and descriptively oriented approaches. Some authors investigate the status and properties of minor or fringe constructions including deictic presentationals, non-restrictive relative clauses with that, isolated if clauses and exceptional clauses. In some articles the validity of conventional accounts and approaches is questioned such as traditional constituency trees and labelled bracketings as a means of representing relationships between parenthetical elements and their hosts or traditional morphophonemic analyses as explanations for Ross's doubling constraint. While some authors question commonly made assumptions for example those concerning the relationships of clauses to sentences and propositions or those concerning the status of post-head dependents in the NP, others appeal to new frameworks for instance emergence theory is used as a source of inspiration in dealing with intransitive prepositions. This collection also includes articles that adopt a solidly corpus based approach. *The Clause in English* has been prepared by colleagues past and present friends and admirers of Rodney Huddleston in order to honour his consistently outstanding contribution to grammatical theory and description.
