

Part A

Which of the following statements is a logical consequence of the second law of thermodynamics?

- If the entropy of a system increases, there must be a corresponding decrease in the entropy of the universe.
- If there is an increase in the energy of a system, there must be a corresponding decrease in the energy of the rest of the universe.
- If the entropy of a system decreases, there must be a corresponding decrease in the entropy of the universe.
- Each chemical reaction in an organism must increase the total entropy of the universe.
