BIOLOGY - UNIT 1

Paper 01
1 hour 30 minutes

10 JUNE 2014 (a.m.)

READ THE FOLLOWING INSTRUCTIONS CAREFULLY.

1. This test consists of 45 items. You will have 1 hour and 30 minutes to answer them.
2. In addition to this test booklet, you should have an answer sheet.
3. Do not be concerned that the answer sheet provides spaces for more answers than there are items in this test.
4. Each item in this test has four suggested answers lettered (A), (B), (C), (D). Read each item you are about to answer and decide which choice is best.
5. On your answer sheet, find the number which corresponds to your item and shade the space having the same letter as the answer you have chosen. Look at the sample item below.

Sample Item

Which of the following metal atoms is present in a haemoglobin molecule?

- (A) Calcium
- (B) Magnesium
- (C) Copper
- (D) Iron

Sample Answer

The best answer to this item is "Iron", so answer space (D) has been shaded.

6. If you want to change your answer, erase it completely before you fill in your new answer.
7. When you are told to begin, read all the questions and decide on a rough order in which to answer them. You will be given 15 minutes to answer the questions. Your score will be based on the number of correct answers.
8. You may do any rough work in this booklet.
9. Figures are not necessarily drawn to scale.
