

Summary

written in 2012 by Carl Hiaasen, *Chomp* is a young adult novel set in Hiaasen's native Florida (specifically, Everglades National Park). Hiaasen, who began his career as a journalist, is the author of six other books for young readers (as well as numerous adult novels). Because his work blends humor with grim realism, *Chomp* features characters who are just as "bizarre" as their Florida setting. Primarily known for his crime fiction, Hiaasen also writes stories that touch on themes of environmentalism, and he often satirizes American popular culture. His work has been longlisted for the National Book Award (*Skunk*, 2014) and his 2000 novel *Afoot* was awarded the American Honor. Both *Afoot* and his 1996 crime novel *Slop* have been adapted into feature films.

This guide refers to the 2012 lumber paperback edition of the novel.

Content Warning: Both the guide and its source text contain descriptions of domestic abuse, gun violence, hostage situations, alcohol abuse, and the mistreatment of animals.

Pilot Summary

When wild animal wrangler Mickey Cray and his son, Wahoo, are hired by the reality TV show *Expedition Survival* to provide animals for its Everglades episode, Mickey's stubbornness and protective instincts for his animals immediately cause conflict with Flaven Stack, the show's producer, and Derek Badger, its pampered, egotistical star. However, because the Crays are deeply in debt, they have little choice but to accept the job. Filming begins in Mickey's homemade swamp, where the hostlers Badger ignores Mickey's warnings and ends up atop a thrashing alligator. When the footage turns out better than anyone expects, Badger orders filming moved to the Everglades to put the newback in reality TV, and Mickey's job description is expanded to "location guide."

Shortly before departing, Wahoo encounters a classmate, Tuna Gordon, in a Walmart parking lot. She has a black eye, and he and Mickey realize that she is the victim of domestic abuse. In order to protect her, they bring Tuna along on their Everglades adventure. As the crew nails down the logistics—renting airboats, scouting locations, and setting up camp—Mickey does his best to tolerate Badger's obnoxious behavior, but his contrarian streak nearly loses them the job several times. Wahoo is forced into the role of diplomat, acting as baloon between his father and the production crew. Tuna, a big fan of *Expedition Survival*, is soon disappointed

Structural Analysis of Metallic Glasses with Computational Homology Akihiko Hirata, Kaname Matsue, Mingwei Chen, 2016-04-05 This book introduces the application of computational homology for structural analysis of metallic glasses. Metallic glasses, relatively new materials in the field of metals, are the next generation structural and functional materials owing to their excellent properties. To understand their properties and to develop novel metallic glass materials, it is necessary to uncover their atomic structures which have no periodicity unlike crystals. Although many experimental and simulation studies have been performed to reveal the structures, it is extremely difficult to perceive a relationship between structures and properties without an appropriate point of view or language. The purpose here is to show how a new approach using computational homology gives a useful insight into the interpretation of atomic structures. It is noted that computational homology has rapidly developed and is now widely applied for various data analyses. The book begins with a brief basic survey of metallic glasses and computational homology, then goes on to the detailed procedures and interpretation of computational homology analysis for metallic glasses. Understandable and readable information for both materials scientists and mathematicians is also provided.

The operatic text begins in Saigon where she meets a little girl named Emi, an American of Vietnamese-Japanese descent visiting her mother's country for the first time since the war's end. As the voices of Lua and Emi blend into one dissociated narration, the stories accelerate out of sequence, mapping upon the globe a series of collective memories and traumas passed from one generation to the next: Darting between the temples of Nagasaki, the mountains of Tucson, and an island refugee camp off the coast of Malaysia, Lua and Emi, in one embodied memory, travel across the English language itself to make sense of a history neither wanted. When a tiny Panda named Panda suddenly arrives, fate intervenes, and the work acts as a larger historical document, unpacking legacies of genocide and the radical modes of resistance that follow. At the heart of this production lies a postcolonial identity in exile, and the performers must come to terms with who may or may not carry their stories forward. Emi or Lua. Part dreamscape, part investigative poetics, multiple fragmenting identities traverse across time and space, the mythic and the profane, toward an understanding of humanity beyond those temple chamber doors.
