There are five problems a day every day for 36 weeks. The practice activities are set up in a spiraling scope and sequence so that students practice skills at regular intervals. Each week's problems are based on a grade level appropriate topic so every time a skill shows up it has a new context requiring students to dig into their memories, recall what they know, and apply it to a new situation. Contemporary Foundations for Teaching English as an Additional Language Polina Vinogradova, Joan Kang Shin, 2020-10-29 This engaging volume on English as an Additional Language (EAL) argues persuasively for the importance of critical participatory pedagogies that embrace multilingualism and multimodality in the field of TESOL. It highlights the role of the TESOL profession in teaching for social justice and advocacy and explores how critical participatory pedagogies translate into English language teaching and teacher education around the world. Bringing together diverse scholars in the field and practicing English language teachers, editors Polina Vinogradova and Joan Kang Shin present 10 thematically organized units that demonstrate that language teaching pedagogy must be embedded in the larger sociocultural contexts of teaching and learning to be successful. Each unit covers one pedagogical approach and includes three case studies to illustrate how English language teachers across the world implement these approaches in their classrooms. The chapters are supplemented by discussion questions and a range of practical sources for further exploration. Addressing established and emerging areas of TESOL, topics covered include Critical and postmethod pedagogies, Translingualism, Digital literacy and multiliteracies, Culturally responsive pedagogy, Advocacy. Featuring educators implementing innovative approaches in primary, secondary, and tertiary contexts across borders, *Contemporary Foundations for Teaching English as an Additional Language* is an ideal text for methods and foundational courses in TESOL and will appeal to in-service and preservice English language teachers as well as students and teacher educators in TESOL and applied linguistics.

Spanish So White Adam Schwartz, 2023-01-10 Explicit discussions of race and racial identity have traditionally been omitted from Spanish language education in the US, especially in curricula designed for imagined native speakers of English. Consequences of this de-

racialization of Spanish language learning include the perpetuation of institutional racism and missed opportunities to build productive conversations about the ways race and power are enacted through language. Spanish So White is written specifically for secondary and post secondary teachers who identify as White and second language learners of Spanish. It supports the development of language education that centers a racially dynamic Spanish speaking world and challenges interpersonal and institutional forms of racism. Author Adam Schwartz shares stories of his own socialization into Whiteness and Spanish English bilingualism. He invites readers into the work of reconciling privileges they too may share as White Spanish language learners and teachers.
