National Skills Strategy: Oral and written evidence Great Britain. Parliament. House of Commons. Education and Skills Committee, 2005 Incorporating HCP 197 i xiii session 2003 04

EBOOK: Developing Thinking; Developing Learning Debra McGregor, 2007-03-16 This highly informative book provides a comprehensive guide to the teaching of thinking skills in primary and secondary education Learning and Teaching Update It is now recognised that thinking skills such as problem solving analysis synthesis creativity and evaluation can be nurtured and developed and education professionals can play a significant role in shaping the way that children learn and think As a result schools are being encouraged to make greater use of thinking skills in lessons and the general emphasis on cognition has developed considerably This book offers a

comprehensive introduction to thinking skills in education and provides detailed guidance on how teachers can support cognitive development in their classrooms

Developing Thinking Developing Learning discusses how thinking programmes learning activities and teachers pedagogy in the classroom can fundamentally affect the nature of pupils thinking and considers the effects of the learning environment created by peers and teachers It compares the nature design and outcomes of established thinking programmes used in schools and also offers practical advice for teachers wishing to develop different kinds of thinking capabilities This is an indispensable guide to thinking skills in schools today and is key reading for education studies students teachers and trainee teachers and educational psychologists

Mathematics Performance in Primary Schools Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2009 In 2007 08 the National Strategy to improve performance in primary mathematics cost some 104 million to implement The Strategy aims to raise performance through extensive teaching and learning resources supported by professional development programmes for teachers In 2006 07 some 2 3 billion was spent on teaching mathematics in primary schools out of a total expenditure of 10 billion on primary teaching and teaching support staff Yet improvements in the mathematics results of primary school pupils have levelled off since 2000 In 2008 79 per cent of pupils met the Government s expected standard at Key Stage 2 age 11 This means that over one in five children are starting secondary school without a secure foundation in mathematics There are persistent gaps in the mathematics performance of primary school pupils from different backgrounds and with different characteristics In contrast to other subjects boys are making more progress than girls The biggest attainment gap 18 percentage points is related to deprivation Performance varies across England and between local authorities with the percentage of pupils achieving the expected standard at KS2 ranging from 70 to 87 per cent The Primary National Strategy has contributed to improvements in primary mathematics teaching and learning but weaknesses persist in vital areas such as the use and application of mathematics to real life situations and the assessment of pupils progress The lack of depth in subject knowledge of many primary school teachers and the lack of take up of continuing professional development in mathematics are major concerns which the Department has only recently begun to address through a ten year programme to train 13 000 specialist teachers

How I Wish I Had Taught Maths: Reflections on research, conversations with experts, and 12 years of mistakes Craig Barton, 2018-01-01 I genuinely believe I have never taught mathematics better and my students have never learned more I just wish I had known all of this twelve years ago Craig Barton is one of the UK s most respected teachers of mathematics In his remarkable new book he explains how he has delved into the world of academic research and emerged with a range of simple practical effective strategies that anyone can employ to save time and energy and have a positive impact on the long term learning and enjoyment of students Craig presents the findings of over 100 books and research articles from the fields of Cognitive Science Memory Psychology and Behavioural Economics together with the conversations he has had with world renowned educational experts on his Mr Barton Maths Podcast and
