Midterm practice

Since there are no past midterms to look at, this document provides some practice questions. The questions are the type you should expect.

The best way to use this practice is to take it like you are taking a real exam. One caveat is that the length of the practice exam is *not* representative of the length of the midterm, so you will probably take more than 75 minutes on the practice. Grade yourself with the solutions *after* you've taken this practice.

The exam will be open book/open note. No electronics. Show your work when appropriate.
