

Fourth Grade Pacing Guide Weeks 1-9

Week	Unit and Topic	Lessons Completed
Operations and Algebraic Thinking Solve real-world problems with whole numbers and operations.		
1	Represent a multiplication equation as a rectangle, e.g., interpret 5×7 as a area with the side lengths 5 units and 7 units, or as a 7×5 rectangle. Understand patterns in multiplication, e.g., recognize that doubling both sides of a multiplication equation results in doubling the product.	
2	Understand that division is an undistributive property, e.g., $10 \div 2$ is not the same as $10 \div 2 \times 2$. Interpret the quotient of a division as the number of groups, e.g., $56 \div 8$ can be described as the number of groups of 8 that can be formed by 56 objects.	
3-4	Use whole number and whole number addition, subtraction, multiplication, and division to solve real-world problems involving unknowns in all positions of a multiplication or division equation, inequality, or equation. Represent these problems using equations with a letter standing for the unknown quantity. Assess the reasonableness of answers using mental computation and estimation strategies, including rounding.	
Number and Operations in Base Ten Understand the place value system for multi-digit whole numbers.		
5-6	Recognize that in a multi-digit whole number, a digit in one place represents ten times what it represents in the adjacent place to its right. For example, recognize that 700 in 700 is ten times the value of 70 in 700.	
Number and Operations: Fractions Understand the meaning of a fraction and use it to represent a part of a whole.		
7	Explain why a fraction $\frac{1}{b}$ is equivalent to a fraction $\frac{a}{ab}$ and use this to multiply and divide fractions. Add and subtract fractions with like denominators. Compare two fractions with the same denominator.

Inclusive Instruction for Students with Emotional and Behavioral Disorders Reesha Adamson,John William McKenna,2020-11-05 Inclusive Instruction for Students with Emotional and Behavioral Disorders Pulling Back the Curtain discusses the challenges of the increasingly common practice of educating students with disabilities in general education classrooms citing that these challenges are often due to the fast pace of instruction the emphasis on advanced concepts and skills that align with college and career readiness standards and the presence of poorly developed prerequisite skills that are necessary for traditional academic success This book posits that these challenges are particularly salient to the education of students receiving special education services for emotional disturbance ED as students with ED have pervasive learning and behavioral difficulties that are often resistant to typical instruction and intervention Contributors argue that despite increased awareness and application of inclusive mindsets school and post school outcomes for this student population continue to be a national concern in the United States In this book contributors provide recommendations for improving the manner in which schools serve this student population through inclusive measures along with resources for administrators teachers and parents guardians that emphasize the provision of a free appropriate public education for students with ED Scholars of education disability studies and psychology will find this book particularly useful

Conversation Starter Steve C. McCullar,2023-02-08 Conversation Starter Let s Talk Business Teaching and Training in Churches By Steve C McCullar Are your business meetings at church unproductive

Do your leadership development programs need to be developed Are you lacking experienced teachers and trainers and only using the volunteers that are available and have no program to build them up Have you ever had those tough conversations about your church s needs in the areas of business teaching and training Motivational speaker corporate trainer and business professor Steve McCullar talks about starting those conversations With over 20 years of teaching and training experience in academic and corporate settings along with experience working in ministry and developing church programs Steve uses biblical principles to start conversations Through stories humor and practical tips and strategies he demonstrates the importance of organizational alignment within the churches especially in the area of learning and development Among these pages you ll discover topics about Why Jesus was called the Master Teacher and not the Master Preacher Dealing with church folk who only want to hear but don t want to do The importance of teachers and trainers in your church Why your church meetings have increased socializing but decreased results Pastoral relationships with the teachers and trainers and pitfalls for all Teaching and Training are ministries While many shy away from what they call a corporate approach this book demonstrates through scripture how God is a businessman Be prepared to put away the thinking that the church should not operate with standard business practices But also be prepared to let go of the business practices that you encounter outside of the church as those negative unproductive and sometimes divisive practices do not have to continue within the church This book is an excellent resource for teachers trainers and even pastors because it will help to identify areas that need to be discussed Don t shy away from the conversations
