Essex Class Carriers In Action:

Essex Class Carriers in Action Michael Smith, 1997-01-01 *Essex-Class Aircraft Carriers 1945-91* Mark Stille, 2022-09-13 A history of the enduring Essex class ships the US Navy's finest and most numerous fleet carrier during World War II which were modernized repeatedly and served with distinction The Essex class was the USN's war winning ship class of the Pacific War Of the 24 ships completed 14 saw action making the Essex class the largest class of fleet aircraft carriers ever built These ships had a fine balance of striking power protection and speed and were modernized during and after the war There were five distinct programs carried out adding not only angled flight decks for jet operations but repeated upgrades to sensors weapons and equipment Essex class carriers were used in a number of roles and provided the vast majority of US Navy air power in the Korean War and a sizeable proportion of air power in the Vietnam conflict However as the super carriers began to enter service in the early 1960s the Essex class was relegated to secondary roles a single Essex carrier served until 1991 as the US Navy's training carrier Using detailed artwork and photos this book provides an in depth portrait of this important and enduring class of ship and looks at its development and modifications while considering the many and varied actions it took part in [Essex Class Aircraft Carriers, 1943-1991](#) Leo Marriott, 2020-12-02 A photographic history of the US Essex class aircraft carriers of World War II including the USS Intrepid that now serves as a New York City museum Essex class aircraft carriers played an essential role in the victory of the United States over Japan in the Second World War and Leo Marriott's photographic history is a fascinating introduction to them Without these remarkable ships the island hopping campaign of American forces across the Pacific towards Japan would not have been possible They also took part in the Korean and Vietnam wars that followed During the Second World War they were at the center of the powerful task groups that could put up hundreds of aircraft to support forces on the ground They were also prime targets for Japanese air attacks in particular the kamikaze suicide missions A total of twenty four were eventually commissioned including several after the end of the war The selection of rare photographs and the expert text cover the evolution of US aircraft carrier design prior to the Second World War and look at the factors which shaped the design and construction of the Essex class Included are dramatic action shots of the new breed of naval aircraft that was launched from their flight decks including Hellcat and Corsair fighters that took on the Japanese and the carrier borne jets that flew over Korea and Vietnam An outstanding book Anchorwatch A book that will surely delight all naval history enthusiasts because it well illustrates the importance that the aircraft carrier had in changing the way warfare is waged at sea On the Old Barbed Wire [United States Fleet Carriers of World War II "in Action"](#) Richard Humble, 1984 **Congressional Record** United States.
