**Achieving a Safe and Reliable Product** E.F. "Bud" Gookins, 2012-06-13 This book is designed to be an easily read high level guide to inform the executive management and staff support functions of an organization how critical it is to develop a Product Liability Prevention System and the steps needed to establish an effective Product Safety Plan It was created to inspire the reader to be aware that the product safety criteria must be a subset of the organization's structure and built into the operation's strategic plan Internationally known quality consultant and lecturer Bud Gookins walks the reader through a series of product systems and design concepts that will enable the manufacturer and service organizations to establish a product safety and product liability prevention process that can be integrated into an existing structure It discusses the key elements of a sound operational process quality assurance and reliability system approach to product safety It will address product liability prevention initiatives the salient points involved in justifying a product recall and how to navigate through the recall of a defective product that reaches the field

*Handbook of Loss Prevention Engineering* Joel M. Haight, 2013-03-19 Loss prevention engineering describes all activities intended to help organizations in any industry to prevent loss whether it be through injury fire explosion toxic release natural disaster terrorism or other security threats Compared to process safety which only focusses on preventing loss in the process industry this is a much broader field Here is the only one stop source for loss prevention principles policies practices programs and methodology presented from an engineering vantage point As such this handbook discusses the engineering needs for manufacturing construction mining defense health care transportation and quantification covering the topics to a depth that allows for their functional use while providing additional references should more information be required The reference nature of the book allows any engineers or other professionals in charge of safety concerns to find the information needed to complete their analysis project process or design

**Inside the Fisher Body Craftsman's Guild** John L. Jacobus, 2011-12-01 From 1930 to 1968 General Motors sponsored a 1/12 scale model automobile design competition for youth the famous Fisher Body Craftsman's Guild Each year thousands of boys and young men from across America competed for scholarships by designing building and submitting a scale model of their own dream car to be judged on such qualities as design originality and craftsmanship A public relations bonanza for GM the program helped to identify and nurture a generation of future leaders in design engineering automotive design automotive styling industrial design and other endeavors In these essays more than 30 Guildsmen chronicle their experiences in the competition revealing their model car design techniques tricks and secrets Philip J Rauth Joseph R Rauth Herman I Rauth Roger D Teter Gordon D Williams William A Keyser Jr Warren M Bakken Wilfred C Keagy Arnold L Joslin
