Lines of Latitude and Longitude

Introducing the Globes

Show students the definition for the equator. Cartographers have also created other imaginary lines that run parallel to the equator. They are called lines of latitude. Show students the lines of latitude on the picture of the globe. Tell students that the lines of latitude measure the distance north and south of the equator. Lines of latitude north are marked in degrees north (°N), and lines of latitude south are marked in degrees south (°S). Tell students that the location of the South Pole
