Latent Religious Resources in Public School Education

Charlotte Easby-Grave, Conrad Augustine Hauser, Gilbert Malcolm Fess, Wace, 1923 *Latent Religious Resources in Public School Education* Conrad Augustine Hauser, 1924 **Sun Tzu on Management** Check Teck Foo, 1995 Contributors including foreign ministers, generals, ambassadors and scholars assess how the UN can meet post Cold War challenges. They look at the achievements and shortcomings of the UN mediation of international disputes and the future of UN peacekeeping operations and discuss lessons learned from UNTAC, the Bosnia experience and the International Peace Academy. For professionals in foreign policy, international affairs and peace studies. Distributed by ISBS. Annotation copyrighted by Book News Inc, Portland, OR. Economic Development and the Use of Energy Resources in Communist China Yuan-li Wu, 1963 **Regions and Resources**, 1997 **Immigration and Australia's Language Resources** Sandra Kipp, Michael G. Clyne, Anne Pauwels, 1995. A study of the extent and nature of Australia's language diversity, the number and employment categories of those using a language other than English. LOTE *Forests, the Non-wood Resources* A. P. Dwivedi, 1993. The non-wood forest products are of immense importance to mankind. With industrialisation and urbanisation, timber and firewood can be substituted by other materials, but there are still a large number of non-wood forest products for which no synthetic substitutes are available. There is an environmental and ecological angle associated with the harvesting of wood products. There are much less environmental issues associated with the harvesting of non-wood forest products. The non-wood forest products provide considerable employment and income to the rural poor and particularly to tribals. A large number of products are exported outside and earn valuable foreign exchange. This book, *Forests, the non-wood resources*, deals with various kinds of non-wood forest products and their management. The dependence of tribals on non-wood forest products and the role of forest on their socio-economic fabric is also highlighted. **Organising Strategy** Check Teck Foo, Peter H. Grinyer, 1994. This book may be the first of its kind in the world relating metaphorically relevant segments of a 2,500-year-old classic, Sun Tzu's *Art of War*, to insights gained through statistical analyses of a corporate database built through capturing CEO's perceptions of strategy processes within major publicly listed ASEAN corporations: Singapore, Malaysia, Thailand, Philippines and Indonesia. This research work has captured widespread press attention across the ASEAN countries, including Korea Times. The entire research process of documenting the strategy processes in ASEAN corporations and integrating empirical findings with Sun Tzu's classic text took the authors about 7 years. Through analogy, the authors seek to record in their book how Sun Tzu's prescriptions on strategy are largely borne out in their empirical research of strategy processes within the major publicly listed corporations within ASEAN, currently the world's most successful economic region. This book is especially relevant to world management now that China, where Sun Tzu continues to be very much revered, is on the path to become by the 21st Century the world's largest economy, especially relevant to world management thinking linked to Sun Tzu's *Art of War*.
