- **Communication activities:** Student's Book pages 138 & 140
- **Pairwork.** Put students into A and B pairs and ask them to turn to their respective pages and study the photo.
- They then work with their partner and show each other their photo. They describe the similarities and differences between the two photos and decide what links them.
- Refer students to the *Useful language* box below the exercise to help them.

That people sometimes use animals to work and entertain them.

- **Pairwork.** Students use the categories in the box to discuss with a partner the different ways animals are used by humans.

Possible answers:

leisure/entertainment: circuses
research: testing on animals for medical purposes or to test cosmetics
security: sniffer dogs to test for drugs or explosives at airports; to protect property
sport: horseracing; greyhound racing; fox hunting
work: dogs for the blind and other disabilities;
workhorses to pull carts; mules and camels to carry people's belongings in some countries

- Pairs join up with another pair to compare their ideas in exercise 2. They then discuss the questions.

DID YOU KNOW?

- **Pairwork.** Students read the information and discuss the questions.
- You could then ask students to report back briefly on anything interesting they heard in their discussions.

Crufts

- If you have a class that likes dogs, get them to find out what happened at the most recent Crufts dog show. Ask them these questions:

- 1 Which breed of dog was Best in Show?
- 2 Can you find a photo of the winner?
- 3 What were other prizes awarded for?
- 4 If you want your dog to enter next year, what exactly must it do (or you do) to be accepted?

differentiated learning this book for Grades 4-12 outlines the Deeper Learning Cycle (DEL) a teaching model that applies learning and content processing techniques to everyday instruction. This resource features chapters explaining the cycle's seven stages including standards and curriculum building, a positive learning culture, acquiring new knowledge, processing learning, and evaluating student learning. A lesson plan template to apply to daily instruction, strategies to help students process content in meaningful ways, reflection questions to help teachers apply the material to their own practice.

Curriculum Series National Council for the Social Studies, 1960 **Theoretical Foundations of Learning**

Environments David Jonassen, David H. Jonassen, Susan Land, 2014-04-08. *Theoretical Foundations of Learning Environments* describes the most contemporary psychological and pedagogical theories that are foundations for the conception and design of open-ended learning environments and new applications of educational technologies. In the past decade, the cognitive revolution of the 60s and 70s has been replaced or restructured by constructivism and its associated theories including situated, sociocultural, ecological, everyday, and distributed conceptions of cognition. These theories represent a paradigm shift for educators and instructional designers to a view of learning as necessarily more social, conversational, and constructive than traditional transmissive views of learning. Never in the history of education have so many different theories said the same things about the nature of learning and the means for supporting it. At the same time, although there is a remarkable amount of consonance among these theories, each also provides a distinct perspective on how learning and sense-making occur. This book provides students, faculty, and instructional designers with a clear, concise introduction to these theories and their implications for the design of new learning environments for schools, universities, and corporations. It is well-suited as a required or supplementary text for courses in instructional design and theory, educational psychology, learning theory, curriculum theory, and design, and related areas.

Teacher's Guide and Key for Broadening Worlds of Science Willard J. Jacobson, 1959. *The Inclusive Classroom* Margo A. Mastropieri, Thomas E. Scruggs, 2007. *The Inclusive Classroom: Strategies for Effective Instruction*, Third Edition. By Margo A. Mastropieri and Thomas E. Scruggs. Recent praise for *The Inclusive Classroom: Strategies for Effective Instruction* is quite detailed and quite practical. Everything is well-linked to both research and standards. Joseph E. Nolan, Indiana University of Pennsylvania. This text is exceptional. The authors have provided numerous practical examples throughout the book that are easy for inexperienced teachers to implement. I believe even teachers with extensive experience would find new ideas in this textbook. Karen B. Clark, Indiana University South Bend. As you can see, the real strength of *The Inclusive Classroom* is its emphasis on practical, research-based teaching and learning strategies in an inclusive environment. The third edition focuses on the basic tools general educators need and directly relates content to the academic and professional demands of teachers in inclusive settings. *Practical and Effective Teaching and Learning Strategies in the Classroom* features offers tips, strategies, and resources that address very specific need areas and can be practically applied to inclusive classroom situations. Classroom Scenarios provide context for the specific teaching

strategies featured in the text Strategy and Lesson Plan Database CD ROM packaged with the text provides users with a searchable database of the strategies featured in the text as well as additional lesson plans for the inclusive classroom The database software also allows users to modify and adapt current strategies and lesson plans or to create new ones Research and Resources that Support Practice and Professionalism Research Highlights explain the research behind certain teaching strategies developed for use with students with special needs provide resources for further information and explanation and tie chapter content to the research with reflection questions Diversity in the Classroom features address the fact that classrooms are more diverse not only in respect to students with disabilities but also with respect to race religion and ethnicity Professional Standards including CEC INTASC and PRAXIS are listed at the end of each chapter where relevant A complete listing of standards can be found on the Companion Website
