

# Cell Growth, Division, and Reproduction

**READING TOOL** **Compare and Contrast** As you read, identify the similarities and differences between sexual and asexual reproduction. Include the advantages and disadvantages of each method. Take notes in the Venn diagram below.

In the space provided, describe an organism that uses both asexual and sexual reproduction.

---

---

## Lesson Summary

### Limits to Cell Size

**KEY QUESTION** What are some of the difficulties a cell faces as it increases in size?

As a cell becomes larger, it is less efficient at moving nutrients into the cell and waste material out of the cell because the surface area does not grow as quickly as the volume. In addition, as a cell grows, it places increasing demands on its own DNA. Therefore, complex living things grow in size by producing more cells rather than by increasing cell size.

As you read, circle the answers to each Key Question. Underline any words you do not understand.
