

RELOADING SAFETY RULES

Reloading is an enjoyable and rewarding hobby that is easily conducted with safety. But, like many other human activities, consequences or negligence can make reloading hazardous.

The essence of reloading safely is proper handling and storage of primers and powder. By observing the following rules, the chance of accidents becomes extremely remote.

Store powder and primers beyond the reach of children and away from heat and open flames. Do not smoke when reloading.

Keep an open powder that needed in an open container.

Immediately store unused powder in its original factory container.

Don't use any powder unless its identity is positively known.

Keep all used powder and trace of uncertain or unknown identity.

Do not use primers in bulk. To do so is to create a hazard! Bulk primers will pass through.

Do not use primers when their identity is not fully known of unknown type of primer.
