

## Lesson Plan Template for CONTENT AREA

*Directions: Use this template for all formal observations conducted by your field supervisor, as well as for any other times you are asked to use the Pitt lesson plan. Be sure to attach any and all assessment tools, worksheets, or other materials.*

*Note: Practiced teachers plan using a backward design process. This process includes a) determining the goals, assessment, and assessment evidence for the lesson, b) carefully considering students' needs, interests, and resources, and c) designing lesson activities that guide the students towards these goals. However, planning is not linear, but rather an iterative process that includes modifying various components as you plan to strengthen the coherence of the overall lesson. Thus, we hope that you will use this template in its entirety, flexibly moving across sections to develop and finalize your plan.*
